

Tax and Financial Risks Due to Drought and Disaster

Date: Friday December 7, 2012

Time: 12:00 Eastern/11:00 Central/10:00 Mountain/9:00 Pacific

Natural disasters and drought conditions have caused widespread effects across the farm economy this past year by increasing price volatility and production risk, as well as increasing financial uncertainty. The second of a three-part webinar series will present tax and financial risk related to drought and disaster impacts. Presentations and presenters include:

Weather Related Sales of Livestock -

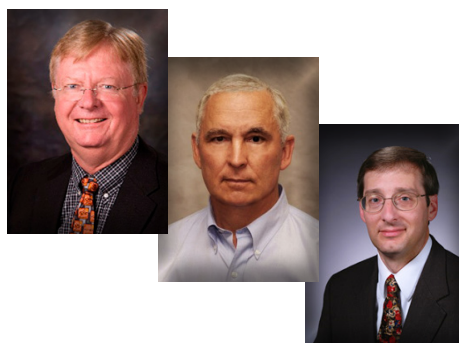

J.C. Hobbs (Oklahoma State University)

DROUGHT: Tax and Cash Flow Consequences -

Danny Klinefelter (Texas A&M University)

Changing Tax Law: What Agriculture Might Expect -

Roger McEowen (Iowa State University)

A third webinar is scheduled for January 22nd and will address strategies for the upcoming production year facing uncertain institutional, production and market risks. All three webinars are co-hosted by the AAEA Extension Section. Archived copies of all Ag In Uncertain Times webinars may be found at: <http://AgInUncertainTimes.FarmManagement.org> > Webinars.

The webinar series is being offered using technology located at Montana State University Extension and hosted through Ag In Uncertain Times. To join the webinar, click on the following link or copy and paste this web address into your browser, <http://msuextensionconnect.org/aginuncertaintimes>

Note: Adobe has made a number of Flash and ConnectPro updates which are helpful for viewing and participating in webinars. Make sure your Flash Player is the latest version. To download the latest player, go to <http://get.adobe.com/flashplayer>

We strongly encourage you to test your computer internet connectivity prior to the scheduled meeting time. Follow the link to test your computer at: http://msuextensionconnect.org/common/help/en/support/meeting_test.htm
